SHRUSHTI SHAHU

Python Developer

INTERNSHIP

AppxBuild Technologies Pvt Ltd.

Experience in developing Django-based Login and Registrations system for a student learning platform. It is a commercial project under development. Developed supporting features also like Reset password, Change password, Change email, Change profile, etc.

CURRICULUM PROJECTS

Eye Care Management

It is a Machine Learning based project that deals with eye awareness and suggests a healthy lifestyle. It also provides affordable solutions. We received the data from different hospitals to train the ML model. The solution classifies the eye disease and suggests a preliminary remedy to the customer.

Heart Attack Prediction

The objective of this project is to classify the low or high risk of having a heart attack. The idea is to import the required data frame, perform data preprocessing, analyze data with EDA, then check multicollinearity, feature selection, feature scaling, data splitting, parameter hyper tuning, modeling, predicting, and model evaluation.

Hospital Management System

Hospital Management System is Django based python solution. This software will take care of all the scheduling of appointments, cancellations, and availability of Doctors. It's a GUI-based solution using HTML & CSS for frontend design.

EDUCATION

G.H. Raison College of Engineering (June 2019 - 2023)

Bachelor of Engineering in Computer Science - CGPA 7.73
